SUMMARY

M.Tech candidate in AI & Data Science with 10 months of hands-on experience building full-stack CRM platforms, agentic AI workflows, and generative-AI creative tooling in a production environment. Comfortable across the stack — React/TypeScript, Python/FastAPI, PostgreSQL.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, SQL

Frontend: React, TypeScript, Tailwind CSS, Responsive UI Design

Backend & APIs: Node.js, Express, FastAPI, REST API Design, PostgreSQL, GCP

AI / Generative AI: LangChain, LangGraph, Prompt Engineering, RAG, Gemini API, Anthropic API, Google Opal, Stable Diffusion, Generative Image/Video Models

ML / Data: Pandas, NumPy, Matplotlib, scikit-learn, TensorFlow/PyTorch

Tools & Platforms: Git/GitHub, Streamlit, Google Colab, Postman

EDUCATION

K J Somaiya School of Engineering

Aug 2024 – Jul 2026

Master of Technology in Artificial Intelligence and Data Science | CGPA: 7.9

Mumbai, India

Vasantdada College of Engineering

Aug 2020 – May 2024

Bachelor of Engineering in Information Technology | CGPA: 7.94

Mumbai, India

EXPERIENCE

Software Development Intern — AI Engineering & Full Stack

Jul 2025 – Apr 2026

Jio Creative Lab

Mumbai, India

- Designed and built Venta, a CRM from the ground up for the Sales & BD team — architecture, role hierarchy, and workflows — deployed as the team's daily operations tool.
- Built 3 AI-driven automation workflows (BIZintel, BrandCrafter, Brand Hierarchy) using Google Opal to streamline day-to-day sales and creative operations.
- Ran data scraping and analysis pipelines to power lead generation and sales optimization, and designed lead-visualization dashboards for faster decision-making.
- Stress-tested generative AI image and video models against creative briefs to identify which models met real-world production requirements.
- Built data-heavy pitch decks (charts, visuals, AI-generated creatives) for sales pitches, and delivered 10+ internal sessions training non-technical teams on AI tools.

Web Development Intern

Jul 2023 – Aug 2023

IBM SkillsBuild

Mumbai, India

- Built responsive web interfaces with HTML, CSS, and JavaScript in an Agile team environment, resolving technical issues to hit sprint delivery timelines.

Web Development Intern

Jun 2023 – Jul 2023

GetFly Technologies

Mumbai, India

- Designed and built web components in HTML/JavaScript, partnering with project managers on UI/usability improvements.

Web Development Intern

Apr 2022 – May 2022

Exposys Data Lab

Mumbai, India

- Maintained and enhanced existing web applications, fixing bugs and improving usability.

PROJECTS

- Venta — Enterprise CRM with AI Chatbot** — *React, TypeScript, Google AI Studio, Gemini API* [Live Demo](#)
– Built an enterprise CRM with an embedded AI chatbot integrated into Google Workspace, including AI-assisted email drafting to streamline sales communication.
- BIZintel — AI Sales Intelligence Workflow** — *Google Opal, LLM APIs* [View App](#)
– Built an automated AI workflow to accelerate lead-generation research and sales-focused business intelligence.
- BrandCrafter — AI Creative Brief Visualizer** — *Google Opal, Generative AI APIs* [View App](#)
– Built an AI workflow that turns creative briefs into concept visuals, speeding up creative ideation and review cycles.
- Brand Hierarchy — Automated Brand Mapping Tool** — *Google Opal, Python, Web Scraping* [View App](#)
– Built an automated web-scraping and analysis workflow to map brand hierarchies for sales targeting.
- F1 Driver Analysis (2000–Present)** — *Python, Pandas, Matplotlib* [GitHub](#)
– Built a custom "Accuracy Average" scoring metric from race wins, podiums, and pole positions to rank and visualize the top 10 F1 drivers of the modern era (2000+).

CERTIFICATIONS

- Statistical Modeling for Data Science Applications** Nov 2025
University of Colorado Boulder — Coursera Specialization
– Includes: Modern Regression Analysis in R, ANOVA and Experimental Design, Generalized Linear Models and Nonparametric Regression
- Data Preparation and Analysis** Nov 2025
Illinois Institute of Technology — Coursera
- Introduction to Big Data with Spark and Hadoop** Oct 2024
IBM — Coursera
